1 - It haz no title

The book said Franz Hopper was an expert on Lyoko. It's amazing!..... I don't believe it! It says he created Lyoko! This is amazing!

It also says that they created an AI version of her on Lyoko so they could be with her! But, in order for them to do that, they would have to materialize her. So they started the materialization program; but, X.A.N.A lunched an attack, killing her parents! Aelita did'nt want X.A.N.A to hurt anyone else. So she shut down Lyoko all by herself. 14 years later, Odd and the others had become friends from going to the same school. Odd wanted to find a hangout for them so Odd went running in the factory like an idiot and the others followed. While roaming in the un-stable fractory, they fall through the floor finding one of the greatest creations and at the same time one of the worst. In Jeremie's amazment, he repairs it, activating X.A.N.A. and starting the torment for Aelita all over again. Unfortunately, after the powersurge and amazing task of disabling lyoko all by herself,Aelita was left without any memory of her parents and only knows of Lyoko and Xana. any memory of her parents, and only knows of XANA and Lyoko. without any memory of her parents but only knows of Lyoko and X.A.N.A.
