# 1 - Xenia1

## THE POWER OF XENIA

In another dimension far in the future:

``Come on in! The soda's great." ``OK Jerry." ``Cannonball!!!!" yelled Mary as she jumped into Great Soda Lake. ``You got soda up my nose!" said Jerry, her brother. Actually, all the kids in Xenia are brother and sister. There are no adults, no pain, and each kid has a special power like telepathy or transfiguration. But no one was as good with their powers as the Defenders Of Xenia, who protected Xenia from adults who tried to take over Xenia. In the center of the planet there was a power core that gave the kids The Power Of Xenia. But there was someone from the 1st Dimension, an adult who knew this and was trying to get the core.

Meanwhile , in the capital city of Xenia , HAGO , The Defenders of Xenia were playing video games in their home , The Defenders Tower. Michael was kicking the bad guy in the shin in one of the games. In the other one , Diana was summoning monsters to beat the bad guy. There are 10 Defenders. The first boy is named Michael. He has brown hair and wears red and black pants and an orange t-shirt. His powers are dematerialization and flying. The second is Matthew , Michael's twin. He wears a black shirt and khaki shorts. His powers are super smartness and mind control. The third boy is Jake. He has blonde hair and wears dark blue cargo pants and a white tank top. His power is super speed and super agility. The fourth boy is named Andy. His powers are super strength and Laser Archery. He wears jeans and a red hooded sweater The fifth boy is named Joey. He has blonde hair and wears a blue t-shirt and blue jeans. His power is controlling inanimate objects.

There were also five girls in the group. The first girl is named Diana. She wears a blue jean jacket over a blue t-shirt and wears bell bottom jeans. She has black, long hair. Her powers are transfiguring herself into animals and summoning and controlling monsters. The second girl is Anna. She is an android with super strength and a laser cannon that comes out of her left arm. She wears a purple shirt and pink pants. She has blonde hair. The third girl is named Leah. She has long

brown hair and wears a backwards baseball cap, a pink shirt, and jeans. Leah's powers are karate excellence and healing.

The fourth is Hilary. She wears a black t-shirt and bell-bottom jeans. Her powers are mind torture and flexibility. The Fifth girl is Sammy. She wears a blue shirt, and jeans. She has long orange hair. Her powers are super smartness and teleportation.

Each controls one element. Michael controls darkness, Matthew controls fire, Jake controls water, Andy has air ,and Jake has metals. Diana controls all nature. Anna controls sand. Leah controls magic. Hilary controls light, and Sammy controls rocks.

As for Xenia its self, it is always about 75 degrees Fahrenheit. All kinds of plants grow there and every animal you can think of lives in Xenia. Michael likes kitties and ferrets.

"Everybody please come to the media room, a concert will be starting in two minutes", echoed Hilary's voice throughout the Defenders' Tower. Hilary was a very talented singer. Michael played the electric guitar during her concerts. All the defenders rushed to the media room where Michael and Hilary were setting up. Michael was tuning his guitar and Hilary was backstage practicing. "And now, time for the concert!", said Michael. As Hilary was walking out the lights started flashing red. Michael said,"It

looks like another break of the transdimensional gate.``"Come on!`` They jumped out of the tower and Diana summoned dragons for everyone except for Jake, Michael, and Sammy. Michael can fly there himself, Jake can easily run there, and Sammy could teleport to the gate. Once they got there they saw a human adult there. He was very tall. He had brown hair and wore a collared t-shirt and mountain pants. Sammy teleported behind the adult and tried to punch him. His body easily twisted out of the way. ``He's like rubber!" exclaimed Hilary. Matthew said,"That's true." Hilary started meditating and the adult screamed. That's what she did for mind torture. While Hilary was doing that, Andy shot two laser arrows at the adult. He dropped to the ground and almost looked hypnotized. He stood up and said, ``We are all followers of the I.X.C.A. (The Inter-Dimensional Xenia Control Agency). We are a group of humans from the planet Earth. Surrender Xenia now! "Never!``, yelled Diana. Then, the human disintegrated. "Great," said Matthew."A whole planet wants Xenia`` "Well lets go back``, said Jake. Then they all flew back to the Tower. After they got back it was time to eat dinner so Sammy went in to the kitchen and started cooking steak. Yum. While she was doing that, Michael was playing the Defenders of Xenia video game with Anna and Matthew. After they were each done eating steak, they discussed who might be a good pick for the team tomorrow during the tryouts.

## 2 - Xenia2

### Tryouts

On this particular day, which came once every ten years, more than 25,000 kids from all over Xenia were lined up outside the Xenia Tower waiting for their tryouts. The two who did the best would end up becoming Defenders of Xenia. Two kids who were named Jerry and Mary were the first to get there. Mary's tryout was first. When she came in Jake had her sign her name on a little sign in sheet. He also asked what her superpowers are. She said they were shooting electricity from her fingers and turning invisible. When she was battling the Automated Enemy Dummy (AED) she electrocuted and paralyzed it. Then she turned invisible and punched it. Then it evaporated which meant she had defeated it. They voted and decided to send her to Defender Prospect School (DPS). There she would be with 99 more kids and there would be 20 "Armies" of five people each. They would tell her if she would be a commander of an army once everyone was done. As a commander she would have to choose four soldiers out of the draft. A commander would be more likely to become a defender than a soldier. Soldiers could get in if they did really well. When Jerry came out, he told Mary that he was in D.P.S. 98 other kids got in also. The kids were told that they would go the school in five days. They were also told if they would be commanders or soldiers. Mary and Jerry were both commanders. Mary was head of the Desoo army and Jerry was head of the SeeKan army. When they went to DTS, they were immediately greeted by the Defenders. "Please go to your respective rooms. At 7:00 Hilary and Michael will preform a concert." Michael continued, "She does not lip-sync." All the children went to their rooms. Matthew's voice echoed throughout the school, "It is now 7:00. Please come to the great room now. ," All the kids hurried down to the concert. They were all very tired when they went back. All the kids fell asleep instantly. "Where are we?", Mary asked sleepily when she woke up to the sound of a robotic voice saying "Wake up," in a monotone voice. Since she was the commander she led her army to breakfast where they had Umteen -berry Hasos. Hasos are a type of pastry that are like a pie filled with cream. They are very good tasting and nutritional. Mary checked her schedule. "Okay every body. Today we have our first practice battle against SeeKan Army. At the battle room the soldiers were about to be released to fight. The doors opened. Jerry was waiting behind the other soldiers. Mary turned invisible. Jerry was teleporting to each of the Desoo army members and freezing them until he got to a blonde-haired girl named Wan-See. When he got there, she kicked his shin. He did not actually get hurt but a machine calculates how much energy they would have left. If it got below 20% they would become very tired. At 0% they would be sent out of the room. One of Mary's soldiers started meditating. A SeeKan soldier tried to go up to her to take over her body but when he got within five inches of her his energy went to zero. He disappeared and was sent to a room with a window overlooking the battle room. Then Jerry froze the girl from a long distance. While he was doing that, a boy named Frinsin shot him in the back with a laser cannon. His energy went to 50%. Then a SeeKan soldier lifted up a Desoo soldier and threw him against the wall. He disappeared. Then, the Desoo girl started meditating again. This time she gave out a pulse of energy so tremendous, all the SeeKan soldiers except a boy named Red disappeared. He had a temporary shield up using his powers. When he stopped shielding because his strength was low Mary froze him and he disappeared. Then both the armies were sent out of the room and given a tape for them to look at of the battle. While the Desoo army was walking back to their

rooms, the girl who had been meditating and sending energy pulses suggested that when they get back to the room that everyone should tell each other their names and a little bit about themselves. Mary went first. ``My name is Mary and I am from the Great Soda Lake region. I like swimming and playing lacrosse."The girl who suggested this idea went second."Hi, my name is Linn-Taj-Hin. I live in the Winn-Yalw region and my best friend who also made it here is an Earth kid from Japan." At this news all the kids' eyes widened. ``His name is Yigii. When he moved to Xenia from Tokyo, he gained powers. He is amazed with this planet." Next up was a girl named Maria. She told them what her name was and that she was an immigrant from the United States. She and her brother, Josh, had come here two years ago from Washington, D.C. Then came Josh, Maria's brother. Basically, he said the same thing Maria had said. Then Frinsin came up. He said, ``My name is Frinsin and I live in the Yu Forest region which is abundant with small, fluffy, hyperactive dogs. ,"

## Earth Life

When it was time to wake up, all the kids in Desoo were very tired because they had stayed up talking with Josh and Maria about how Earth was. Everybody had been amazed at how different life on Earth was. They thought it would be fun to live like Josh and Maria had. Maria said that all the rumors that Humans were evil were false. All the kids already knew this because Maria and Josh were fine. Also, there were rumors that the Defenders were going to investigate Earth disguised as regular schoolchildren. There were many things that Josh and Maria told them such as Earth was different temperatures in different regions of Earth.
