Can you read this?

Only smart people can.

I don't believe that I could actually understand what I was reading.

The phenomenal power of the human mind, according to a research at Cambridge University, it doesn't matter in what order the letters in a word are, the only important thing is that the first and last letter be in the right place.

The rest can be a total mess and you can still read it without a problem.

This is because the human mind does not read every letter by itself, but the word as a whole. Amazing huh?

Yeah and I always thought spelling is important!
