# 1 - The Letter

YAY!!! I started my own KH3 story. XD (finally) I hope you guys like it. ^^

Disclaimer: I don't own Kingdom Hearts. But I wish Square-Enix could see this and use my idea&.

## Chapter 1: The Letter

Sora, Riku, and Kairi stared at the letter they had just received from the King. It had only been a little while ago that Sora and Riku returned to the islands after defeating Xemnas, superior of Organization XIII. Ever since the islands were first destroyed, the trio had been separated for too long of a time. But now, they were together, staring down at the letter that might separate them again.

Sora stared blankly at the strange letter, reading it over and over again in his head. He read it aloud, Dear Sora, Riku, and Kairi,

It hasn't been that long ago since we last saw each other, and you three just got home, but there's still trouble in the worlds. Everyone at the castle is having some trouble connecting with all the other worlds to warn them of the danger. Not only are there Heartless and Nobodies, but there's a new enemy out there looking for someone, we just don't know who. But, I'm worried that it might be one of you three! About this new enemy, we'll discuss more about it when you get to the castle. I've already sent Donald and Goofy with a Gummi Ship for you. It should be there in three days, so be ready!

From,

King Mickey

P.S. I have something to discuss with Kairi

As soon as Sora read the last few words, Kairi's hearts began to race. What would the King want to talk to her about? Is it something serious? Is that new enemy after her? Will something bad happen that only she can know about?

What enemy do you think the King's talking about? Sora asked, breaking into Kairi's thoughts. She simply shrugged. Riku took the letter from Sora's hands and read it over.

Well, He said we've got three days to figure it out.

Or, we can wait till he tells us.

I prefer figuring it out then getting the full story&

Kairi satred at the letter in Riku s hands. It was utterly silent for awhile What do you guys think he wants to tell me? Kairi asked breaking the silence. The boys thought about it leaving Kairi with her past thoughts. She let out a distressed sigh.

I wouldn t worry too much about it. Sora reassured her. It s probably something good.

I doubt it& Kairi looked down at her feet. Sora gave her a worried look. Riku scratched his head and it was silent again. As long as the trio had known eachother, it had never been silent. There was always something going on between the three. Weither it was Sora and Riku arguing about something, or the tree friends just talking, it was never silent. Never. The silence carried on. The only noise was the sound of the waves crashing on the shore and a few calls from three distant voices. Most likely Tidus Selphie and Wakka, the other children from the islands and friends of Sora Riku and Kairi. When the islands were first destroyed, no one knew where the three had gone.

The silence was still going as the three stood there, as if waiting for something. Silence was something new and unusual for Sora. He didn t like it. He decided to say something. Um&.. He had nothing to say. The letter attracted everyone s attention to it and if he tried to say something completely different, someone would pull the conversation back to the it, and the silence would begin again. &&Kairi, do you have any relatives?

I already told you, Sora. No Kairi answered, still staring at her feet. It was silent again.

It began to turn dark and the trio left for home without a word. Hopefully, Sora thought rowing slowly to the main island, The silence won t be there tomorrow.

WOOOOOOOOOOO where did the same noisy Sora Riku and Kairi go? XD I like this chapter. Very wordy. And it took up 2 pages on Microsoft Word!!!! But I m not sure if there s any humor in it ;\_;; What does the King need to tell Kairi? I don t even know!!! :O Talk amongst yourselves and guess ^^ We ll just have to see. Please leave a pretty little comment without the flame, thank-you! I ll love you if you do! ^^

## 2 - Promising Departure

It s time for chapter 2!!!! No important info, yet. But u get 2 hear from the knights ^^

Disclaimer: I don t own Kingdom Hearts &..if I did, I d be rich

Sora walked slowly home. Not a lot happened today, but it was still enough to make him wonder.

What are you gonna do? Roxas asked. Even though he and Sora were fused, they could still communicate with each other.

I m not sure. Sora shrugged. He still couldn t shake the thought of the new enemy or what the King might want to say to Kairi. But, I do know that it must be something important if the King won t explain it on paper.

When isn t what he has to say important?

Sora shrugged again and kept walking.

-----OoO-----

Three knights wandered along and almost endless abyss of dusty land. They stopped to see three Keyblades in the center of a crossroad. The crossroad was made of Keyblades without their keychains.

This looks bad. Said the female knight.

Keyblades without keychains can only mean--- the male knight began.

Tell me about it. Interrupted the other knight, oblivious to the fact the male knight was speaking. They picked up the three Keyblades in the middle of the crossroads. They still had their keychains, but they were weak. So&what do we do with these? The other knight asked.

There s only one thing we can do. Answered the male knight. The three knights continued to walk through the dusty land.

-----OoO-----

The three days came and went quickly on the Destiny Islands. Sora Riku and Kairi waited on the other island for the Gummi Ship that will take them to their next adventure.

It was still silent among the group. A word or two may have escaped the mouths of the trio during the three days. They didn t bother going to school what s the point? They were only going to be home for three days.

The Gummi Ship came finally and landed smoothly on the sandy beach. Donal and Goofy ran out to greet their friends.

It s good to see you again! Donald said.

Garwsh, we sure missed you! Goofy cheered. They dog pilled on Sora.

It s great to see you guys, too! Sora said trying to stuggle from under the two. Kairi giggled and Riku chuckled. Very funny& Donald and Goofy helped Sora up.

Before everyone Sora Riku and kairi could get on the Gummi Ship, Tidus Selphie and Wakka ran to them.

Where do you three think you re going? Tidus asked out of breath.

Without us? Selphie finished.

Is it so important that you gotta leave so soon, mon? Wakka asked in his foreign accent

Well& Sora hesitated It is pretty important&..

Sorry we have to leave so soon. Kairi apologized softly.

Selphie looked behind the trio and saw Donald and Goofy. Who are they? She asked.

The short one is Donald and the tall one is Goofy. Riku introduced Donal and Goofy before they could themselves. Donald and Goofy, they re Tidus Selphie and Wakka. The three waved.

We really gotta go.. Sora said to Riku and Kairi. They got into the ship, but left the door open.

Make sure you visit once in a while before disappearing like before! Tidus demanded but laughed, ruining the moment.

We will. I promise.

You make too many promises, Sora. Selphie smiled Make sure you keep this one!

We ll make sure he does. Riku and Kairi said in unison.

You betta, mon! Wakka said with a slight chuckle. The Gummi Ship took off as its door finally closed. Selphie and Wakka waved as Tidus walked after the Gummi Ship. He stopped when it went passed the water. He sighed.

I wonder if they ll come back this time& Tidus said as the ship went further and further until it was out of sight. The Gummi Ship continued through space.

WOW!!! This 1 was loooooooooooooooooong! 3 pgs. On MS Word!!! My fingers hurt&lol Anyway, I hope u like this chapter. I HAD 2 put Tidus Selphie and Wakka in this 1!!!HAD 2!!!! I hope u enjoyed this 1.

### 3 - Meet the Chipmunks

WOOO! Chapter 3!!!!!! All will b revealed&it s a long chapter&O! And wat the King has 2 say Kairi&let s just say&u ll just hav 2 find out. >:3 &ok here it is.

---

#### Chapter 3: Meet the Chipmunks

Sora was a better pilot than Riku and Kairi expected. He drove the Gummi Ship smoothly, at a fast pace. He must have been in a hurry to find out what the King had to tell them. Kairi wasn't. She wished Sora would go slower&

They made it to the castle and Sora landed the ship in the Gummi Garage. They were greeted by Chip and Dale, who scurried to them.

It's been awhile, fellas! Chip said, bouncing in the air.

It hasn't been that long, Chiparoo. Dale commented. But, it's still great to see Sora again! The chipmunks caught a glimpse of the curious Riku and Kairi.

Oh! Chip, Dale, these are my friends Riku and Kairi. Sora introduced.

It's nice to meet y'all! Chip and Dale leaped onto either of Kairi's shoulders. She smiled, feeling more relaxed.

We're the Gummi Ship engineers. Chip said rather proudly. We know everything about Gummi Ships and all their functions.

And all the fancy tech work!

HEY! Donald yelled, as he always did. We know about the fancy tech work, too!

Yeah, but we know more. Chip said, referring to himself and Dale. Donald muttered under his breathe.

Alright, fellas. That's enough. The King walked into the garage, with a happy look on his face. Kairi became uneasy again, as the chipmunks jumped off her shoulders. It's great to see you three again, but his face was stern We need to discuss this matter. Sora, Riku and Kairi, followed by Donald and Goofy, proceeded into the courtyard. Riku and Kairi looked at the enormous castle in amazement.

Uh&You're Majesty, Riku asked *This is your castle?*

Welp. It's mine *and* everyone's who live here. Riku nodded, still looking at the castle. But, it's even

bigger inside. The King pushed a door at the side of the courtyard open, and everyone walked into the hallway of the castle. It was long, and appeared almost endless. They walked down the long hallway, into the library. What I m going to show you can *never* be told to anyone else! The King took a small red book out of the shelf and it moved aside to show a small underground passageway.

What is this place? Sora asked as he looked around wide-eyed.

They walked deeper into the tunnel. This is what we call The Hall of the Chosen Ones. The King replied.

Meaning&

This is where everyone can see all of those chosen by the Keyblade.

Am I in it!?

Not yet. Sora tilted his head to the side, and bowed it. After the tunnel, came a long room decorated much like Ansem s study. The King must have really missed his friend&After what happened in The World That Never Was, not too long ago, Ansem the Wise was no longer with them. His machine created an explosion powerful enough to take *his* life, but not the others . The machine had, also somehow, returned Riku to his normal state when he had Ansem s, the heartless, appearance. Even though, the room had a few touches of the King s own, and it looked much older.

Sora looked curiously at the chosen ones before him. They were all different and unfamiliar to him that is, except one&Sora stared at the portrait of the familiar face. It was the most the recent one, most likely, the one just before him.

You re Majesty, He said finally Who s this? Sora pointed at the portrait as the King approached it.

Welp, he began. It s kinda a long story. I ll tell ya later.

But he looks& Sora studied the portrait again &so familiar. Like I met the guy, but&I never did& King Mickey said nothing.

Well anyway, about that new enemy. King Mickey walked over to three suits of armor. Two were fit for a man and the other appeared to be for a woman. They were silver and white with small hints of gold. All three had helmets and capes. These three aren t you re enemies. But they re not your allies either.

So, we re fighting armor&? Sora asked obviously, not using his head.

The King shook his head. This is what the non-enemy/ally looks like. He walked to another suit of armor, also, for a man. Only, this one was black and a dark shade of gray. The cape was also black. This is the enemy. The Dark Keychaser. He s the one who takes the keychains off of Keyblades and

But, you re Majesty, Riku interrupted. What s so bad about taking those keychains.

Well, Riku. If a Keyblade doesn t have its keychain, it ll be wielded by someone of darkness. Someone

who's heart is completely filled with it. That's why you have to stop him! Warriors of the darkness could use the keychainless Keyblades to fight off Heartless and release a captive heart. If they get enough, then

Organization XIII will come back, right? Kairi pointed out, also interrupting the King.

That's right. The King faced the armor. Be careful! He can get to you. Don't let him mess with your feelings; he's an expert on that!

Alright, you're Majesty. Sora said. Stop the Dark Keychaser, be careful, and restore peace to the worlds. I think we got it all! C'mon you guys. They turned towards the door. Onward to adventure! They started walking out.

Hold it! The King declared. Sora and the others stopped and turned back to face him. Did you guys really think I'd forget?

Forget about what, you're Majesty? Sora laughed nervously.

I still have ta talk to Kairi. Kairi bit her lip. Her heart began to pound in her chest. Sora put a hand on her shoulder. She jumped.

It'll be okay. He said gently smiling. We're all right behind you.

I have to talk to her&alone.

&In spirit& Kairi took a deep breathe and followed the King into another room. He shut the door. Sora frowned and sighed.

Garwsh, fellers, Goofy scratched his head. Too bad we can't go with them and support Kairi&

Well, Donald said. That doesn't mean we can't listen.

Ain't that spying?

Who cares!? Sora shouted. Let's just lis Donald covered his mouth.

Do you want the king to find out? He asked. Sora shook his head. Then, be quiet, you big palooka! He uncovered his mouth.

Sora, Donald and Goofy crept to the door. Riku sighed. What's the worst that could happen? He thought. He, too, crept at the door to listen.

Kairi, there's something really important I gotta tell ya. The boys heard The King say. Something you can't even tell Sora, Riku, Donald, Goofy, or anyone else!

-----  
Srry to hav 2 cut end the chappie here. It was 2 long and if I went any further, u ppl would b like OMG wen is this gonna eeeeeeeeeennnnnnnnndddd!!!!??? Shut up, cause u no u wold ve XP Anyhoo, this

WILL get better. And I added some humor in there. And about the whole So&we re fighting armor? thing, don t take it the wrong way. I just feel that s something Sora would actually say& Review plz and NO FLAMES thank-u!
