Health Notes: Rusty has ADHD which makes every day life for him a living hell. Ever since he can remember he's had trouble paying attention in class, often getting kicked out of classes by frustrated teachers who have no formal training on how to handle his ADHD.

Stoker relocated Rusty to Earth to attend a normal earth highschool in an attempt to see if a faster paced life and a erratic environment were factors in Rusty's behaviour.

Rusty is also a bronchiac who when a coughing fit grips him, has a deep echoing cough that often times causes him to either pass out or start to spit up blood from the sharpness of the cough.

How right was Stoker?: After bein on earth for a year,Rusty's Psycho-Education Evaluation showed that his changed diet and calmer surroundings had balanced out the chemical imbalance in his brain.
