1 - Strange how we met.

It was another ordinary day in station square. Sonic hadn't heard of Eggman in a while. Tails was driving his plane in the forest with Sonic sitting on the front of it. "...Man, nothing interesting happens anymore..." Sonic stated. Tails looked at Sonic and was thinking. " Why don't you go for a run?" Sonic shrugged, "I already went running not too long ago. There's nothing new to see." Just then, they both turned their heads to the sound of a scream. "Sonic! That sounds like a girl!" Tails yelled over the screams, "It could be Amy or Cream!" Sonic yelled back to his friend, "I'll go check it out. You go back to Chris' house and tell everyone I may be late...or not!" Then Sonic jumped off the plane.

Sonic had just landed on the ground from his jump and was running around until he found what he was looking for. A huge robot, of course belonging to Eggman, was attacking a girl. What made Sonic surprised was that it wasn't Amy or Cream. It was a girl he had never seen before. She was a yellow hedgehog with long quills flipping at the bottom. She had blue eyes, and wore a pink tank-top, just over the belly button, and a pink flaring mini skirt.

Sonic was just staring at her while she kicked the stuffing out of the robot. Sonic was about to leave, thinking she didn't need his help, when the robot grew bigger and it's hand reached out and picked up the yellow hedgehog and threw her towards the trees and boulders. Sonic then ran towards the robot and did his spin attack on it and he went right through it. The robot fell down on it's back and shrunk back to its normal size. After he knew the robot had been defeated, he ran to help the yellow hedgehog.

"Hey wake up!" The yellow hedgehog opened her eyes to see a male blue hedgehog leaning over her. "W-what happened...?" She sat up and looked around. She was in a cave with Sonic. She looked outside and saw it was raining pretty badly. "Where's the robot??" The yellow hedgehog asked. Sonic grinned and answered. "You were beaten up pretty badly, so I took care of it." At that time, the yellow hedgehog blushed. "Thank you." Sonic looked away and chuckled, "No problem...Hey what's your name? Mine's Sonic." The yellow hedgehog answered "My name is Angel." They both looked at each other, having nothing to say, until Sonic spoke. "You wanna get going?" Angel was confused at that point. "Go where?" "To your home of course." Sonic said. Angel looked away, and talked in a low voice, "I..I don't have a home..." Sonic felt really bad. He shouldn't have said anything. "My mother died when she gave birth to me...and my dad...well, he never really cared about me, so he left without saying a word..." Angel said in a faint tone. Sonic looked at Angel, and he saw she was about to cry. He couldn't stand when a girl cried. He had to act fast. "Uh...Why don't you come with me? I live with a kid named Chris, and he would be happy to have more company." Angel looked at Sonic, smiled and nodded. She was ready to get up and walk beside Sonic, but she yelped and fell back down. "What's wrong?" Sonic asked. "My ankle...I think it's sprained." Sonic could tell it was. It looked pretty swollen. She must have

sprained her ankle from the attack of the robot. Sonic looked around, but couldn't find anything to rap her leg in. He looked at Angel, "I'll be right back," and he ran out of the cave. A while had past until he came back. He was soaking wet, and was holding a towel. "I got this from some townsfolk in their cottage. Here," and he handed it to Angel. She gave a little gesture for Sonic to kneel down beside her, and he did. She took the towel that Sonic had given her, and started to dry Sonics quills. "You're soaking wet! You're going to get a cold unless you dry yourself." After she finished, she took the towel, shook it until it was dry enough, and tied it around her ankle. "We should go now. It's getting dark." Angel said. Sonic nodded, ran outside really quick, and brought back a huge leaf. "What's this for?" Angel asked. "It's to keep our heads from getting wet." Angel giggled, "I should have guessed that." They both started laughing. Sonic picked Angel up, and handed the huge leaf to her. "Can you keep the leaf over both our heads? It's kinda hard for me. My hands are full." Sonic asked. Angel nodded and lifted her arms above both their heads. Sonic then started running to Chris' house.

2 - Relaxation Resort

Sonic and Angel arrived at Chris' house later than they expected. Sonic knocked at the door, trying to hold Angel at the same time. No one answered the door. Angel noticed a piece of paper taped on the inside of the window beside them. "Sonic look!" Sonic turned his head and saw the paper. He ran over to it and read it out loud. "Sonic, we've gone on a trip 2 hours from here. We're staying in a hotel called 'Relaxation Resort.' We are beside a beach. You should be able to find it no problem. There is only one in this country. If you are not sure where it is, ask someone. See you there! -Chris."

Sonic had a confused look on his face. "How in the world should I know where this place is? I've never heard of it before!" Angel thought for a minute, and Sonic noticed that she was thinking. "I know where this place is...Yes! I remember! I'll tell you where to go."

Two minutes later, they got to the hotel. Chris, his family, and Sonic's friends pulled in at the same time. "Hey Sonic!" yelled Chris. "Hi guys!," Sonic said when everyone came out of the car. "I'd like you to meet someone. This is Angel. She'll be staying with us, if it's ok with you guys." Chris smiled. "Sure it's ok. My name is Chris." Tails, Cream, Cheese, Chuck, Ella, Mr. Tanaka and Cream's mother came to greet Angel next. Sonic noticed someone was missing. "Wait...Where's Amy?" Sonic asked. "Oh, don't worry, she's on vacation with her sister. She'll be back home in 2 days." Chuck said. Sonic was relieved. He could finally relax and not have Amy bug him.

The rain had just stopped, but before when Sonic and Angel had arrived at the hotel, it was raining softly, not bothering anyone. "We'd better go check into the hotel," Chris said.

When they found their hotel room, everyone was dazzled at how big it was. There were 6 rooms, a kitchen, a living room and 2 bathrooms. Cream, Cheese and Cream's mother shared one room, Chris and Tails in the second, Chuck in the third, Ella in the fourth, Mr. Tanaka in the fifth, Angel in the sixth, and Sonic...on the couch. Angel said that Sonic could take her room, and she would take the couch, because she felt bad, but Sonic said he'd rather take the couch. He can watch T.V. whenever he wanted.

Everyone was watching a movie, and when it finished, they went to bed, except Sonic and Angel. "We're going to watch another movie, then go to bed, ok?" Sonic asked. "That's fine, just, when you're done, turn off all the lights." Chuck said, then walked to bed, with everyone following. "Is it ok with you that we stay up a bit longer to watch another movie?" Sonic asked Angel. Angel nodded and smiled, so Sonic put another movie in.

3 - Ability Reveiled

The second movie had just finished, and Soic looked at Angel, and she was almost asleep. "Hey Angel. Don't fall asleep yet." Sonic said. Angel opened her eyes to see Sonic looking at her. "Sorry...I'm up now." Angel said and stood up. Sonic stood up next, holding Angel so she wouldn't fall because of her sprained ankle. Sonic picked Angel up, and ran her to her room. "I'm just going to get changed. I'll be right back," Angel told Sonic. He nodded and said, "I'll wait out here 'till you're done."

Angel walked into her room, and looked into the closet. She found a night dress that looked like it fit her perfectly. Just when she was about to put it on, she stopped because she saw a glow from under her bed. She looked under the bed, and was shocked at what she saw. A chaos emerald. She picked it up, and closed her eyes. A yellow glow started to surround her. When the glow stopped, she put the chaos emerald in her pocket, and took the towel off her ankle. She began moving her foot, then got changed.

Angel ran out her room. "Sonic, look! My ankle's all better!" She stopped running and started to laugh. Sonic was asleep. "Well, it looks like it's my turn to carry you around," Angel said to herself. She picked Sonic up, and started walking to the living room. She layed him on the couch and whispered to him, "Goodnight, Sonic." Just before she turned the corner in the hall, she heard someone say, "Goodnight, Angel." She turned around, and saw that Sonic was looking at her, with one eye open, and smiling. She smiled back, turned off all the lights, and went to bed.

4 - Awakened by a Disturbance

Sonic was sleeping soundly, until he heard Angel scream. "AHHHHHH!!!!!! SONIC!!! HELP!!!!!" Sonic opened his eyes, and got off the couch as fast as he could. "Angel?" Sonic said and started running to her room.

When he opened the door, Angel was no where to be seen, just a tall alien looking creature with its back facing Sonic and little alien creatures by its side. "Where is she?" Sonic screamed at the creature. The creature turned its head and looked at Sonic. It had 6 yellow eyes and very sharp teeth. "I don't know what your talking about." chuckled the creature. "You know exactly what I'm talking about! Where's Angel?" Sonic yelled. "Oh, you mean her," the creature said while turning around to reveal Angel trapped in its arms, with her mouth covered by its hand. Angel was struggling to get free. "Angel..." Sonic said with sadness on his face. The creature chuckled, "She sure is an angel, isn't she?" He started to stroke her quills, which made Angel uncomfortable. She tried to pull away, but she couldn't. "Stop it! Let go of her!" Sonic yelled. The creature grinned with an evil look on its face. He took Angel and held her out the window. "If you insist," said the creature and let Angel go, making her fall. It was a very long fall. She would die if she hit the ground.

Sonic ran to the window, pushing all the little creatures out of the way. He looked down, and was surprised to see a purple ball, shaped object coming up the wall, passing by Sonic. He looked up and noticed it was Angel. She wasn't in a ball anymore, and now she was falling. Sonic stuck his arms out the window, and grabbed her, pulling her back into the room. "Are you ok? Did it hurt you?" Sonic asked. "No, I'm fine. Thanks," Angel responded.

Sonic turned and looked at the creature, keeping Angel behind him. "Who are you, and what do you want?" Sonic asked. "My name is E-232, and I came for the girl behind you. Dr. Eggman's orders," said the creature. Angel spoke next, "Why me? What did I do?" E-232 looked at her and answered, "You didn't do anything, we just 'need' you." He started to chuckle, which made Angel nervous. Sonic was getting angry. "Well you can't have her." E-232 sighed, "Well you know what? I always get what I want!" E-232 jumped for Angel, but Sonic answered, "Not if I can help it!" and jumped at E-232, pushing him on his back. E-232 rolled Sonic on his back, but Sonic used his feet and kicked E-232 off of him, making him hit the wall behind them. Sonic stood up, and so did E-232. They just stared at each other, but Angel had a feeling E-232 was going to do something to Sonic if she didn't act fast.

5 - Need of Help

Angel looked behind E-232 and noticed he was holding a large claw. All of a sudden, E-232 pulled the claw from behind his back and was ready to grab Sonic with it. "Sonic, look out!" Angel shouted. Sonic looked at her with a confused face, "Huh?" Just then, Angel jumped at Sonic, and pushed him out of the way, which made E-232 grab Angel instead. "This makes things so much easier!" E-232 said. E-232 and his minions disappeared, bringing Angel along with them. "No! Stop!" Sonic yelled, but was too late to stop them. "E-232...Hey! That's one of Eggman's robots! I'll go to his base!" Sonic left the hotel and ran to see Eggman.

"Who are you?" Angel asked. "My name is Dr. Robotnik, the worlds greatest scientist in the world, and I need you to do me a favour." (if you don't know, Dr. Robotnik is also Eggman ^_^) Angel wasn't too sure that she should help him. "Ok, what is it that you want?" Eggman grinned, "I saw how you healed yourself with the emerald in your pocket, and I want you to heal my robots that your friend Sonic busted." Angel just smiled, "No way am I helping you!" Eggman's smile faded. "Oh ya! We'll see about that!" Eggman snapped his fingers and E-232 grabbed Angel and put a bracelet on her wrist that she couldn't take off. "Hey! What the heck is this for?" Angel demanded. Eggman pulled out a switch from his pocket and pressed the button. The bracelet started to shock Angel. She fell to her knee's. "Eggman grabbed the emerald from her pocket. "Now will you heal my robots?" Eggman asked, Angel looked and gave a small smile, "Fat chance..." Eggman pressed the button again, but longer this time. Angel passed out, but Eggman was still shocking her. You could see marks all over her because of how powerful and painful the shocks were. Eggman was laughing, until was interrupted by a loud crash from the window.

6 - Quick Recovery

It was Sonic! "Quit it Eggman! I've had enough!" Eggman screamed, "Ahh! Its Sonic...err I mean, I'm not afraid of you! E-232, get him!" Sonic dodged E-232, and ran to Angel. He grabbed her wrist and broke the bracelet off of her. He then took the switch from Eggman's hand. He threw the bracelet at E-232, and just at the right time, he pressed the button on the switch. E-232 was getting shocked so much, he exploded, causing the whole place to be full of grey smoke. When the smoke finally faded, Eggman looked up and noticed Sonic and Angel had disappeared. "No!...well, at least I have..." Eggman stopped talking and was trying to reach for the emerald in his pocket that he had taken from Angel. "...Where is MY EMERALD!!! CURSE YOU SONIC!!!"

Sonic was running his fastest to get back to the hotel with Angel in his arms. "Good thing I saw the emerald in Eggman's pocket before I left," Sonic thought to himself. He looked down at Angel, and was worried she was really hurt. If the shocks from the bracelet could explode a robot, then it must've been really painful on Angel.

When they got back to the hotel, Sonic ran to Angel's room, and laid her on the bed. "What do I do now?..." Sonic asked himself. "...Sonic? Do...you still have...the chaos emeralds?" Angel asked Sonic with her eyes still closed. She remembered opening her eyes and seeing Sonic grab the emerald from Eggman's pocket back at the base. Sonic looked at her and was shocked to see her awake. "Uhh...ya. I have it," Sonic answered. "Can...you put it...in my hand?" Angel asked. She stuck out her, and Sonic noticed all the pain she was going through. Sonic nodded and placed the chaos emerald in her hand, like she had asked.

A yellow glow started to surround them, making Sonic shield his eyes from the light. When the light had faded, Sonic looked at Angel as she started to sit up. "Angel, you're ok! How did you do it?" Angel looked at Sonic and said, "I'm able to heal myself and others by using the chaos emeralds." Sonic chuckled, "You should have told me that sooner, so I wouldn't have to worry so much, seeing that you would be ok." Angel chuckled and looked at Sonic. Sonic looked at her back, both of them smiling at each other. "Sonic?" Angel asked, breaking the silence. "Ya? What's up?" Sonic asked. "Thank you for saving me. You are the nicest person I have ever met." While saying this, Angel reached out and put her hand on his shoulder. "There's one thing you should never forget." Angel said. "What's that?" Sonic asked. Angel took her hand off of his shoulder and placed it on his chest, near his heart. "You

have a heart of gold." Sonic looked at her and smiled, "Thank you Angel." Angel reached out and gave Sonic a hug, and he hugged her back. "I'm so glad that you're ok," Sonic said.
