~~~~~

O.k. so Noelle isn't an obsessed fan! But I couldn't think of anyone who was...and I can make Noelle one! So that works out fine for me! But, you see, I also knew that Noelle would probably be the type of person, if obsessed with something, that would make a list of reasons why...which she actually already has for something. But, anyways, I thought this might be funny! And I can't help it...I love HP and the Phantom of the Opera...oh, which reminds me, I saw a fanfic pretty much just like this by...I think it was BloodRoses, but I'm not positive. Anyways, I thought it was funny, and I should do my own. So here it is. I think I should do one with Trigun...haha...and Harry Potter, of course. I just thought I'd add the fanfiction thing in here!
