AnimeGuys4Me: Behold! A Digimon fic! It's a Harry Potter crossover too! I have never read the books;
I'm basing it off the movie, ok? When this is done, I shall make a parody of the other books, or movies!
So, enjoy!

A cloaked figure waited on the dark street of Private Drive as the clouds overhead covered the moon's bright glow. A second figure soon joined them and gave a nod to show their presence was recognized. They waited in silence until finally a large body appeared before them, holding a small bundle in its arms. Together, the three made their way to a large house. The door wore a golden number, informing others that it was "4" on Private Drive. The first figure took the bundle and set it on the doorstep. It brushed some fabric from the front, revealing a small face of a baby with a strangely large amount of brown hair. The figure placed a finger on the child's forehead, over a lightning-shaped scar.

“Good luck...” The figure whispered in a soft female voice, “...Taichi Kamiya.”
