Chapter 1 - we laugh and play

2

1 - we laugh and play

*The pains of my past
The blood that ever lasts
I'm bounded by all these chains
Only tightening its grip
Harder to restrain
These words have no meaning
The truth only lies
And so many hearts die
Ears that here
Listen no more
Voices heard
Speak no more
Of death plain in sight
We all die
In this existence
A plague so worst than the one before
We sing
And
Dance for a the galore
One little man falls to his knees
One little child always pleads
One mother no longer to breathe
All the men cry
All the children flee
To many for them to see
We laugh
We play
For their own decay
Death follows you close
Don't worry we stay at bay
We laugh
We play
Not phased by the way
With this plague
We can stay
Silly breed
We laugh at you
Going insane by the way
You all fade
Dance for a the galore
One little man falls to his knees
One little child always pleads*

*One mother no longer to breathe
All the men cry
All the children flee
To many for them to see
We laugh
We play
We sing these words just like these
"One little flu"
"It chooses you"
"You cough and sneeze"
"You start to wheeze"
"You fall asleep and never wake up in the morning"
So now we laugh
You start to fade
And now it all fades away
Its just us
And we wave
Good bye.*
