**Chapter 1 - Untitled**

**2**

# 1 - Untitled

Titel:Titel: Foolsguide to recognize a Werewolf  
Disclaimer: Nothing belongs to me (criessilently)  
Author: Moony 4ever  
Category: general/humour  
Summery: A very interesting andhelpfull artichel in the Daily Prophet...  
Authors notes: It'snot really a ff but I though it might be funny to read. Just something Ithought about while driving back home from school in a full bus.  
Ähmm...andyes, English is my second language so don't expect to much (And NO, I'm notbeing paranoid!!!)

"Hey, Remus!" Sirius turned to face Remus who had just entered the kitchen. The black-haired man was laughing madly.

"Morning." Was the werewolf's grumpy reply.

"Hada bad transformation?" Asked Sirius worried.

"Mhhh." Remus sat down on a chair with great affords. He had, of course, had a bad transformation. The full moon had been up two days ago but Remus hadn't felt able to come down out of his room until today. *One shouldn't get used to the Wolfsbane potion* he thought sadly. Snape had, that's at last what he'd said, *unfortunately* forgotten the ingredients for this month. That's why Remus had to go through the whole thing without it. It was his first time since almost two years. The wolf had been very happy about it.

"You'd like to eat something?" Sirius was holding a big pan with bacon right under the werewolves nose. Remus flinched imminently.

"Do you want me to throw up?" He grabbed a cup of tea with his shaking hands and took a careful sip.

"Your moods are unbearable, I hope you know this! Here... I've got something for you. I think this will light up your mood." Sirius passed him the latest Daily Prophet.

"Page 5."

Remus opened the paper reluctant. A big, red headline could be seen on top of it.

## **Fools guide to recognize a Werewolf**

**By**  
**Gilderoy Lockhart**

### ***An by Lockhart himself (1973):***

***The Werewolf.*** *The Werewolf is one of the most malicious, dangerous and devious magical creatures to walk this earth. When the full moon's out the human wolf turns into a giant, bloodthirsty Werewolf with just one wish: To kill and bite!*

*The already mentioned human wolf is not any better. That's the reason why I, Gilderoy Lockhart, youngest bestselling author of the history of magic, wrote this article only to protect YOU and YOUR family against the most inhuman animal of all inhuman creatures.*

*With the help of the following tips you can easily find out whether your neighbour/friend/boss/worker/family member is a WEREWOLF!*

*AN by the DP:*

*This is one of the oldest masterpieces of the master himself, written in 1973. The journalists of the DP would like to express their deep regret about that fact that Mr. Lockhart is still not in full possession of his memory and of his skills.*

*AN by Dolores Umbridge:*

*I'm very delighted about the fact that the DP recognizes the danger coming from these bloodthirsty half-breeds and that the journalists found this very informative and professional insert. Should you recognize a Werewolf, please contact the MoM immediately. You can also read up your personal rights concerning Werewolves in the MoM civil code Section: Dangerous magical creatures § 1 Werewolves. Do NOT show any kind of mercy towards the beasts!*

*14 tips who to distinguish between a normal man and a werewolf:*

- 1. Is your neighbour/friend/boss/worker/family member turning into a hairy beast once a month you can be absolutely sure: He/She is a Werewolf.*
- 2. Does your neighbour/friend/boss/worker/family member have bloody fingernails, which he never seems so cut? If yes you can be sure: He/She is a Werewolf.*
- 3. Do the pupils of your neighbour/friend/boss/worker/family member sometimes switch their colour into yellow? If yes you can be sure: He/She is a Werewolf.*
- 4. Does your neighbour/friend/boss/worker/family member have an extraordinary extremely pronounced hair growth (Arms, legs, chest, hair, beard, ...). If yes you can be absolutely sure: He/She is a Werewolf.*
- 5. Are the eye-teeth of your neighbour/friend/boss/worker/family member more like fangs and always a bit red? If yes you can be sure: He/She is a Werewolf.*
- 6. Does your neighbour/friend/boss/worker/family member like to eat almost raw meat? Can't he/she keep control when he/she smells blood? Is he/she eating all the time you see him/her? If yes, you can be sure about one thing: He/She is a Werewolf.*
- 7. Search to the toilet of your neighbour/friend/boss/worker/family member. If you find pieces of bones, object like golden tooth, hair slides, ear clips etc in his/her excretions you can be sure he/she is a Werewolf.*

8. Search the cellar of your neighbour/friend/boss/worker/family member, if you'll find chained up virgins you can be sure (80%) that he/she is a Werewolf.

9. Examine the body of your neighbour/friend/boss/worker/family member for bites and scars. If he has unusual much you can be sure he/she is a Werewolf.

10. Examine the smell/perfume of your neighbour/friend/boss/worker/family member. If it smells of blood, hairs, wildness and dogs you can be sure: It is a WERWOLF.

11. Are the eyebrows of your neighbour/friend/boss/worker/family member knit together in the middle? Are the backs of his hands and of each foot extremely hairy, you can be sure: He/She is a Werewolf.

12. Does your neighbour/friend/boss/worker/family member own big animals, which disappear from time to time only to be replaced by bigger ones? Werewolves like to eat them during the full moon.

13. Can you watch your neighbour/friend/boss/worker/family member wandering around graveyards in the night? Werewolves like just buried, juicy corpses and almost rotten bones.

14. Is the blood of your neighbour/friend/boss/worker/family member black? If yes you can be sure: He/She is a Werewolf.

And at last, after you have done what the 14 tips tell you, you might be not entirely sure whether your neighbour/friend/boss/worker/family member is a Werewolf in this case I would suggest: Let yourself be bitten by him and look what happens to you when the next full moon rises. If you turn into a Werewolf yourself, you can be sure: He/She is a WERWOLF. (If you're not sure whether you're a Werewolf or not, just go through the tips again.) This last one always works.

I guess I have, because of this very useful, academic, by professors tested rules, saved millions and millions of lives. Yours could be the next!

Remus dropped the newspaper and started to laugh.

“Now, what do you say? Do we know a werewolf.” Sirius was looking at him with big, innocent eyes.

“I’m not quite sure about it. I need to go through this 14 rules, and especially through the last comment about biting very carefully. But at the present time I’m afraid I can’t because I have to look after my chained up virgins, my extreme hair growth and about the bones still lying in the toilette. I hadn’t had the time yesterday night because I was busy *digging up dead bodies and gorging on them.*”

The two friends stayed in the kitchen, talking to each other and laughing about the article for some time.
